

CSCI 4041, Fall 2018, In-class Exercise 0

Due Thursday, 9/6/18, 10:30 AM (submission link on Canvas)

Form a group of 2-4 students using the Discussion Forums in Canvas (or any other method), and join one of the Exercise 0 Groups in Canvas. The diagram below shows how it should work (in theory, at least). There are 200 groups in the E0 Groups category, so at least one of them should be available so long as all groups have at least two members.

The screenshot shows the Canvas LMS interface for the course CSCI 4041 (001). The sidebar on the left contains navigation links: Account, Dashboard, Courses, Calendar, Inbox, and Help. The main content area is titled 'CSCI 4041 (001) > People > Groups'. It features a search bar and a list of groups. Annotations include: 'Step 1: Click the People tab' pointing to the 'People' tab in the sidebar; 'Step 2: Click the Groups tab' pointing to the 'Groups' tab in the top navigation bar; and 'Step 3: Pick an empty group and join it. Make sure the other group members pick the same one.' pointing to a group entry labeled 'E0 Group 1 E0 Groups' which shows '0 students' and a lock icon.

Group Name	Students	Lock Icon
E0 Group 1 E0 Groups	0 students	Yes
E0 Group 2 E0 Groups	0 students	Yes
E0 Group 3 E0 Groups	0 students	Yes
E0 Group 4 E0 Groups	0 students	Yes

Once you have at least two people in your Canvas group, have one person submit any PDF file they choose to the In-class Exercise 0 submission link. I personally suggest uploading a cat picture from the internet to a Google Doc, downloading it as a PDF, and submitting that, but there are no actual restrictions other than it having to be in PDF format.
