CSELabs account

You need a CSELabs account to participate in labs in this course

Lab attendance is mandatory
http://cselabs.umn.edu
http://cselabs.umn.edu

Account Information

The College of Science and Engineering provides and maintains publicly accessible computing labs in support of education, work, and limited research (see Usage Policies) for its faculty, staff, and students.

Eligibility

CSE Labs accounts are available to:
- All students who are currently enrolled in the College of Science and Engineering
- Faculty in the College (email operator at operator@cselabs.umn.edu - we will open one for you)
- Students taking courses within the college that require CSE Labs access

Account Creation

CSE Labs use is open to any student currently enrolled in the College of Science and Engineering.

You can open a CSE Labs Account using one of the following two options:

- Online: You can open an account online by completing the CSE Labs Account Creation Form.
- Labs: You can also open an CSE Labs account by visiting one of the CSE Labs. Enter your UGID for the username, and "R0gister" for the password, to log into one of the workstations. Once you have logged in, complete the Account Creation Form that is presented.

Acceptable Use Policies
CSE Labs accounts no longer closing every term

If you have had a previous CSE Labs account, you do not need to reopen it every term. Accounts will now only be closed after a year of inactivity.

Welcome to the CSE Labs Account Creation Site

Use this site to initiate your CSE Labs account. CSE Labs use is open to any student currently enrolled in the College of Science and Engineering.

If you do not know what your username is, or you are having problems see the U of M Student Internet Account Initiation Form.

Create CSE Labs Account

For further information send email to operator@cselabs.umn.edu or stop by the Systems Staff Office in Keller Hall 1-201.

For a list of our hours see Systems Staff Contact Information and Hours.

Changing your Password

If you want to change your password, you will need to use the U of M Internet Account Options web page.
http://cselabs.umn.edu

Welcome to the Fall2012 CSE Labs Account Creation Form.

Use this form to initiate or change your CSE Labs account for the Fall2012 semester. CSE Labs use is open to any student currently enrolled in the College of Science and Engineering.

Please enter the following information:

- Your student email **username**.
- Your **password** for your general UMN email account. (To verify your eligibility for a CSE Labs account.)

Username: park0580@umn.edu
Password: 

If you do not know what your username is, or you are having problems see the **U of M Student Internet Account Initiation Form**.

For further information send email to operator@cselabs.umn.edu or stop by the Systems Staff Office in Keller Hall 1-213.

For a list of our hours see **Systems Staff Contact Information and Hours**.

Syllabus, schedule, other goodies

Moodle page will have grades and homework submissions
www.cs.umn.edu
Syllabus

10% Labs
30% Homework (due Fridays)
  5% Quiz (Feb. 17)
15% Midterm 1 (March 4)
15% Midterm 2 (April 15)
25% Final (May 13)
Syllabus

Each week there will be either a homework due or a test (next week)

Homework is due Fridays at 6:00 P.M. on Moodle

Late homework is not accepted, but we will drop the lowest
Syllabus

Labs will only be graded within your designated lab

Homework must be coded individually

Don't cheat
Grading scale:

93% A
90% A-
87% B+
83% B
80% B-

77% C+
73% C
70% C-
67% D+
60% D
Below F
Schedule

Ch. 1: Introduction, Programs, Compilers
Ch. 2: Input/Output, Data, Expressions
Ch. 3: Control Flow (if and loops)
Ch. 4, 5: Functions (return values)
Ch. 6: File I/O
Ch. 7, 8: Arrays and Strings
Ch. 9: Pointers and Dynamic Arrays
Ch. 10&11: Classes and Operator Overloading
Ch. 14&15: Recursion & Inheritance
Syllabus

Any questions?
If you can think of an explicit process (of simple steps) to solve your problem, then it can be programmed.
Banana Nut Bread

Ingredients

* 3 or 4 ripe bananas, smashed
* 1/3 cup melted butter
* 1 cup sugar
* 1 egg, beaten
* 1 teaspoon vanilla
* 1 teaspoon baking soda
* Pinch of salt
* 1 1/2 cups of all-purpose flour
Banana Nut Bread

Directions
1. Preheat the oven to 350°F (175°C).
2. Mix butter into the mashed bananas in a large mixing bowl.
3. Mix in the sugar, egg, and vanilla.
4. Sprinkle the baking soda and salt over the mixture and mix in.
5. Add the flour and nuts last, mix.
6. Pour mixture into a buttered 4x8 inch loaf pan.
Repetitive tasks

Simply move the blue ball with your mouse and avoid the red balls. Easy? Definitely not!
ATMs

How do you get change for $18.26 with the least amount of bills and coins?
Repetitive tasks

If you feel like a mindless zombie when you do it a lot, you can probably program it.
Repetitive tasks
Repetitive tasks
Auto leveling?
Software vs Hardware

Software - the more intangible code on a computer

Hardware - the physical Parts of the computer
Hardware interaction

Input → CPU → Memory → Output
Memory addressing

Data is stored in “addresses” inside the memory

Later in this class, we will use these addresses to manipulate and share data
Memory addressing
Object oriented programming

OOP - focus on data and how they interact

To make algorithms for OOP, it is often useful to identify the data you are working with and their relationships before programming.
Object oriented programming
